

Product Design Challenge:

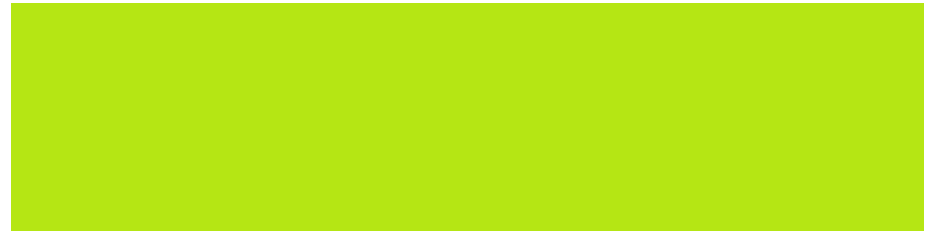

Create a gift bag with 10 seed balls. They will be used as gifts, on "World Environment Day"

1) Design the bag cover image or logo

2) What kind of material will the bag be made of?
Paper, cloth, plastic bag? Write below.

3) What kind of seeds will you use? List below what you have at home.

3) Make a sticker design, highlighting the benefits of using seed balls.
It will be stuck behind the bag.

- Seed balls are eco-friendly solution to restore natural eco-system.
- If you scatter seeds, they are often eaten up by insects, rodents, and birds or washed away by rain but seeds remain protected inside a seed ball.
- These seed balls eliminate the labor of plowing or digging holes for seeds.
